ALEXANDRIA, VA. THURSDAY EVENING, MARCH 31, 1910.

PRICE 2 CENTS

A Square Deal

Is assured you when you buy Dr. Pierce's Golden Medical Discovery, for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are getting for the money you pay, and that the ingredients are gathered from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better remedy than any other for treating and preserving the mucous membranes used in them, viz., pure refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and disinfectant, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to its sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchitis, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on conditions caused by irritation and congestion of the tracheal mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption.

HALLEY'S COMET.

Members of the Maryland Academy of Sciences, after careful study and much calculation, have concluded that Halley's comet will not be as brilliant as is popularly supposed when it is nearest the earth, May 18, 19 and 20. They argue that the comet will have receded somewhat from the sun so that it will have begun its fading process, and dawn and twilight will interfere with its brightness.

Dr. John B. Hooper, chairman of the astronomical section, says that the coma surrounding the nucleus will appear large and will be high enough in the western sky the last of May to be above the low mist and smoke. He says the comet is now coming toward the earth and will appear above the western horizon May 19 or 20 very rapidly for several days and then appear to move more slowly in a southerly direction. During April and the early part of May, says Dr. Hooper, the comet will appear to move very slowly, and in the last of May it will be visible in this section. During this period, says Dr. Hooper, the comet will appear somewhat stationary.

At the present time, according to Dr. Hooper, the comet is obscured by the sun, behind which it passed March 23, at a distance of 80,000,000 miles from it. In other words he explains that the comet is at present 160,000,000 miles from the earth.

NEW YORK ROME OF AMERICA.

"This is the greatest Catholic city in the world, the Rome of America," declared Archbishop Farley to more than 200 members of the alumni of St. Francis Xavier's College and the Xavier Alumni Sodality, who dined at the Hotel Astor, New York, last night, with the archbishop as the chief guest. The prelate spoke briefly on the theme of a Catholic citizen's duties.

"I met a southern lady to-day," said the archbishop, "who said to me: 'You don't know how proud I am to be here in this great Catholic city of New York.' Then she added: 'It's the Rome of the New World.'"

"Our co-religionists in New York," continued the archbishop, are comparatively few and not so well off in this world's goods as some of our neighbors, but you in New York are sustained by a community such as you will find nowhere else in the world. Recently I visited Paris, Vienna, and other great cities but nowhere did I find evidence which changed my belief that New York is the greatest Catholic city in the world."

WIFE-BEATER WHIPPED.

Charles Delosier received 10 lashes at the whipping post in Hagerstown, Md., yesterday afternoon at the hands of Sheriff Barber for wife-beating. The officers and a few other persons were permitted to see the flogging, which took place in the jail yard. The sheriff used a whip with fine lashes and laid it on with vicious lash bringing large welts on Delosier's bare back.

Blood was drawn in two places. Delosier displayed courage while being whipped, making no outcry. Before the whipping began he said:

"This is a shame."

He was handcuffed to the bars of the cell and stripped to the hips. After the whipping he was examined by Dr. D. A. Wilkins, but the physician said he did not need surgical attention.

Delosier is the fourth man to be whipped in Washington county, Md., for wife-beating.

SUICIDE OF A WITNESS.

Advices from Holland, on the Southern Railway, state that Sam P. Holland of that place, who was one of the most important witnesses in the murder trial of Sam Hardy, now awaiting execution for the murder of Tiberius Gracchus Jones, of Holland, met a tragic death there Tuesday night. He was struck by the westbound passenger train on the Southern Railway. The engineer says he saw the man's body lying on the track. Holland was a clerk for Sam Hardy. He went to Norfolk during the trial in an effort to find evidence that would clear his friends of the charge and was shadowed by detectives while he was there. He has been brooding over the impending execution of his friend and, it is be-

lieved, that this unbalanced his mind and caused him to take his life.

MISSIONARY RETURNING.

Reverend William H. Sheppard and his wife, colored missionaries of the Southern Presbyterian Church on the upper Congo, in Africa, are returning to this country, having sailed two weeks ago on account of Rev. Sheppard's health, which has become seriously impaired by repeated attacks of African fever. It is not known whether the missionary will give up the work permanently or rest up and return to Africa. He has spent 20 years on the Congo, and in many ways is regarded as the most effective and successful missionary of the present generation. His wife has spent about 15 years in Africa. Their children born in Africa are in St. Louis at Sheppard's old home attending school and in the care of relatives.

BOY STARVES TO DEATH.

The body of Ernest Johnson was found early yesterday in the topmost branches of a tree in Fish Bayou swamp, near Palmetto, La., by a searching party that had been looking for him for the past week.

The youth took refuge from alligators in the tree several days ago and starved. A note found in his hat told the story of his death.

He had been fishing in the swamp when alligators swarmed around him. The alligators attacked the boat, and the boy ran to a cypress tree.

He climbed the tree, thinking the alligators would go away, but they maintained vigil at the foot of the tree day and night, until the terror-stricken lad lost nerve and dared not attempt to escape in the boat. He starved to death.

The project of fortifying the Virginia Capes, with a view of affording better protection for the Chesapeake Bay, was the object of a meeting of the Cape Henry fortification conference, held in Washington yesterday. Representative citizens of Maryland and Virginia and officials of the War and Navy departments attended.
